

Door & window sensor

Features

- Wireless
- 1-2 year battery life
- Sends alert when cover is removed or battery is running low
- Use on doors, windows, cupboards and drawers

Setup

- Indoor use only
- 2 x CR2032 Lithium batteries (included)
- Works off short range radio frequency to the control panel with 200m open air range. This means in an average sized kiwi home (150-200sqm) your sensors will be able to communicate with your control panel from one side of your home to the other.
- Mounts with adhesive (included) that will stick to most surfaces
