

Motion sensor

Features

- Wireless
- 2-3 year battery life
- Sends an alert if cover is removed or battery is running low
- Can also be screwed into wall (screws not included)
- Sensitivity range of 18kg at 9m

Setup

- Indoor use only
- 2 x AAA Lithium batteries (included)
- Works off short range radio frequency to control panel with a 200m open air range. This means in an average sized kiwi home (150-200sqm) your sensors will be able to communicate with your control panel from one side of your home to the other.
- Mount at 2.1m with adhesive (included) that will stick to most surfaces
