

Smoke alarm

Features

- Wireless
- 2 year battery life
- Detects heat and smoke using photoelectric technology
- Constant connection to the control panel with 200m open air range. This means in an average sized kiwi home (150-200sqm) your sensors will be able to communicate with your control panel from one side of your home to the other.

- If triggered siren in smoke alarm as well as control panel will sound
- Sends an alert if opened and if battery is running low
- Status LED and low battery beep

Setup

- Indoor use only
- 3 x AAA batteries (included)
- Mount with Philips head self tapping screws (included)
